

Legacy: Integration, impact, added value, future

Pierre Fogal

Legacy: Integration

Integration within INTERACT

- Lifelong science support from school kids to politicians

Legacy: Integration

Integration with consortia and networks

- EU Arctic Cluster
- Business
- Education systems
- Arctic Council working groups and permanent participants
- 172 networks

Legacy: Impacts

- Science: mass training of potential future scientists
- Social: Increasing awareness of global change issues (BBC?)
- Political: reaching and advising Governments (e.g APPGPR)

*Reaching out to
Russian
Ministers of
Education and
Environment*

Legacy: added value highlights

- Business opportunities from drone work package
- Education – master students and new courses
- Interactive science stories book
- Research hut in Greenland
- An unfunded joint research activities
- SECNET workshop
- Input from the permanent participants to the Arctic Council
- Czech Academy of Sciences support analyses of disease vectors
- Aligning data management efforts with developments within the EU-Arctic-Cluster

Legacy: future

1. Opportunities to Early Career scientists within INTERACT e.g. WP leader, task leader, TA Board member
2. Opportunities within Horizon 2020 upcoming Infrastructure call
3. The INTERACT Foundation and negotiations with sponsor

Thanks for your attention

Katrine Raundrup
