Chapter sections
Reducing the Environmental Impact of Arctic Research Stations

1. **About this book**
   Every station, ecosystem, country, legislation and financing opportunities are unique.

2. **Reducing environmental impact**
   Introduction: what does it mean to reduce a stations impact?

3. **Transport**
   Logistic | Air plane | Ship | Train/Truck

4. **Energy**
   Solar panels | Windmills | Water turbines | Fuel | **Supplementing energy source**

5. **Water**
   Tap water | Waste water

6. **Consumer goods**
   Minimizing *(packing wrappers)* | Food
Reducing the Environmental Impact of Arctic Research Stations

7. Garbage
Re-use materials | Sorting | Selling | Burning | Dumping

8. Infrastructure
Building materials | Eco friendly interior | Quality products | Laboratory equipment

9. Protecting the environment
EIA

10. Informing outsiders
Scientists | Local communities | Tourists and other visitors

11. Evaluating your impact
Form
Reducing the Environmental Impact of Arctic Research

1. About this book
2. Reducing environmental impact
   Introduction: what does it mean to reduce your impact?
3. Transport
   Logistics | Means of transportation
4. Energy
   General consumption | Transportable energy
5. Water
   General consumption | Waste water
6. Consumer goods
   Re-useable
7. Garbage
   Recycle | Leave no trace
8. Research infrastructure
   Use RE energy in the field
9. Protecting the environment
   Access | Spatial research extent | Environmentally damaging materials | Endangered flora & fauna
10. Evaluating your impact
    Form
